

29 June 2026

Dear Valued Customer,

This letter is to inform you of the standards met by ExlfilmPlus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films..

Country of Origin

ExlfilmPlus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films are manufactured in the USA.

Manufacturing Standards

ExlfilmPlus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films are manufactured in a facility that is certified to the following industry standards: ISO 9001-2015, and GFSI-BRC.

FDA Food Contact

ExlfilmPlus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films comply with the appropriate FDA regulation for food contact including 21 CFR 177.1520, 178.3860, 177.1350.

Conditions of Use

ExlfilmPlus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films should be stored at maximum storage temperature of 85°F for no longer than 6 months. ExlfilmPlus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S are microwave safe and may be used as articles or components of articles intended for use in contact with food, including articles used for holding food during cooking at temperatures not to exceed 212°F (100°C). Finished articles may contact food only under Conditions of Use B through H described in Table 2 of 21 CFR 176.170(c).

Animal Derived Materials

ExlfilmPlus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films do not contain animal derived materials.

Kosher

ExlfilmPlus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films are Kosher certified (Pareve, Passover) through OK Kosher.

Heavy Metals (CONEG)

ExlfilmPlus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films comply with CONEG regulations on heavy metals. The sum of concentrations of mercury, lead, cadmium, and hexavalent chromium in these products do not exceed 100 parts per million by weight. These metals are not intentionally added to these products.

Latex

Exfilmplus® 365, ExfilmPlus® 365AF and Exfilm® 307S shrink films do not contain natural rubber latex, dry natural rubber latex, synthetic latex or rubber latex.

Food Allergens

Exfilmplus® 365, ExfilmPlus® 365AF and Exfilm® 307S shrink films do not contain known food allergens such as Peanuts, soybean (soy products including TVP, HVP, flours, etc.), milk (dairy products, dairy derivatives: ex. casein, lactose with protein), eggs or egg products, fish, crustaceans, tree nuts (almonds, cashews, pecans, pistachios, walnuts, etc.), wheat (flour, starches), gluten, seeds or seed products (cottonseed, poppy seed, sesame seed or sunflower seed), sulfites, artificial color (ex. FD & C yellow #5), Aspartame or monosodium glutamate.

Nitrosamines

Exfilmplus® 365, ExfilmPlus® 365AF and Exfilm® 307 do not contain any known nitrosamines such as NDMA, NDEA, NMBA, NMPA, NIPEA or NDIPA.

Phthalates, Bisphenol A (BPA)

Exfilmplus® 365, ExfilmPlus® 365AF and Exfilm® 307S shrink films do not contain compounds such as bisphenol A, octyl and nonyl phenols and their ethoxylates, butyl benzyl phthalates, dibutyl phthalates and diethyl hexyl phthalates which have been linked to affecting the endocrine system – as well as DMP, DEP, DAP, DPP, DBP, DIBP, DMEP, BCP, BPS, BPF, DNPP, DCP, DNHP, DIHP, BDP, DBEP, DEHP, DNOP, DIOP, ODP, DINP, DPHP, DUP, DIUP, DTDP and DITP.

Polyvinyl Chloride (PVC)

Exfilmplus® 365, ExfilmPlus® 365AF and Exfilm® 307S shrink films do not contain Polyvinyl Chloride (PVC).

California Proposition 65

Exfilmplus® 365, ExfilmPlus® 365AF and Exfilm® 307S shrink films do not contain compounds listed in California Proposition 65 (list date 5 Dec 2025).

Flame Retardants

Exfilmplus® 365, ExfilmPlus® 365AF and Exfilm® 307S shrink films do not contain any flame retardants such as chlorinated flame retardants, brominated flame retardants or any other type of flame retardant.

Medium-Chain Chlorinated Paraffins (MCCP)

Exfilmplus® 365, ExfilmPlus® 365AF and Exfilm® 307S shrink films do not contain any medium-chain chlorinated paraffins.

REACH, RoHS, ELV

Exlfilmplus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films do not contain Substances of Very High Concern (SVHC), as listed in the European Union's REACH standard (List Date 25 Jun 2025), above the 0.1% threshold and are therefore not required to be registered per REACH Article 7 (EC 1907/2006). They also comply with RoHS (2015/863/EU) and ELV (2000/53/EC).

Persistent Organic Pollutants

Exlfilmplus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films do not contain any Persistent Organic Pollutants (POPs) as listed in EU 2019/1021. While we do not test for their presence, they are not intentionally added to these films and are not expected to be present.

Persistent, Bioaccumulative, and Toxic (PBT) Substances

Exlfilmplus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films do not contain any Persistent, Bioaccumulative, and Toxic (PBT) substances as listed in U.S. CFR Title 40, Chapter I, Subchapter R, Part 751, Subpart E. While we do not test for their presence, they are not intentionally added to these films and are not expected to be present.

Polyfluoroalkyl Substances (PFAS)

Exlfilmplus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films do not intentionally contain polyfluoroalkyl substances (PFAS) including PFOS, PFOA, PFxHS, PFNA or PFCA. While we do not test for their presence, they are not intentionally added to these films and are not expected to be present. As such, these films are acceptable under EU Regulation 2025/40, Article 5.

Organic Fluorine

Exlfilmplus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films do not have levels of organic fluorine that exceed 100 parts per million.

Sustainability

Exlfilmplus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films have been Cradle to Cradle Certified™ at a Silver level. This comprehensive sustainability evaluation includes metrics for Material Health, Material Reutilization, Renewable Energy, Water Stewardship, and Social Fairness. For more info visit c2ccertified.org.

Radioactive Materials

Exlfilmplus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films do not have any radioactive materials in them.

**Recycling**

Exlfilmplus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films are composed of Class 4 (LDPE) plastic and have How2Recycle store drop-off approval. As such, these films are acceptable under Waste Framework Directive 2008/98/EC and EU 2018/851.

Recycled Content

Exlfilmplus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films do contain recycled materials.

Compostable

Exlfilmplus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films are not compostable.

Renewable Resources

Exlfilmplus® 365, ExlfilmPlus® 365AF and Exlfilm® 307S shrink films are made primarily from petrochemicals, which are not considered renewable resources. There are, however, components in the formulation which are derived from plant-based materials which are renewable.

We trust you will find this adequate assurance of our products' safety. If you have any questions, please feel free to contact me.

Sincerely,

Jeffery De Los Santos
