

SF TOOLS™

MODULAR EXTENSION SYSTEM
AND
ARM ASSIST BRACE

MODULAR EXTENSION SYSTEM

Extend your reach and accomplish more with our modular extension system.

With five different lengths and styles to choose from, SF Tools' heat tool extensions provide the flexibility to complete larger shrink wrap jobs faster and more efficiently.

We offer 6', 4', 3' and 2' angled extensions, plus the 2' Straight X-tender.

The Shrinkfast 200 heat tool can be outfitted with a 2', 4', 6' and up to an 8' extension.

THE 2' STRAIGHT XTENDER OFFERS FLEXIBLE COMBINATIONS:

- 2' extension into a 4' extension
- 4' extension into a 6' extension
- 6' extension into an 8' extension
- We also offer a convenient 3' Extension for the Shrinkfast 60 heat tool.

OUR DURABLE EXTENSIONS CARRYING BAGS ALLOW FOR EASY TRANSPORTATION

- Industrial grade polyester materials
- Detachable shoulder strap
- Holds 3 extensions with combustors
- Available in 85" or 64" lengths

SF TOOLS ARM ASSIST BRACE

With a lightweight ergonomic design and easy installation, the Arm Assist Brace fits firmly and securely over your Shrinkfast 200 (formerly 998) heat tool. The additional forearm support provides the stability needed to control even heat application in hard-to-reach places.

Reduce the stress on your hand, wrist, and arm while extending your reach with our Heat Tool Extensions.

With a lightweight aluminum body and ergonomic design, our Arm Assist Brace has a lightweight aluminum body and ergonomic design. It allows for one-handed shrink wrapping while using any of our extensions, making you more productive.

PRODUCT FEATURES & BENEFITS:

- Reduces the stress on your forearm during shrink wrapping
- Allows for one-handed shrink wrapping with extension installed
- Lightweight aluminum design
- Rugged powder coat finish
- Fits the previous Model 998 and Shrinkfast 200 heat tool
- Compatible with any Shrinkfast 200 Extension length
-  Made in the USA
